

PHOTO CLASSES

TAUGHT BY
BARRY CHRIETZBERG

Learn Photography from a career photographer!

TOPICS TAUGHT IN PHOTO ONE

- Learn how to move your camera from automatic settings to manual.
- Learn what all the exposure adjustments mean and how to properly set them.
- Learn three ways to determine accurate exposure.
- Learn about depth of field, lens selection, and camera handling techniques.
- Exciting classroom experiments including “Painting with Light”
- And much more!

TOPICS TAUGHT IN PHOTO TWO

- Take skills learned in photo one to make creative photos.
- Learn about composition, such as leading lines, rule of thirds, negative space, etc.
- Learn posing and lighting techniques.
- Field Trips for practicing!
- And much more!

TOPICS TAUGHT IN PHOTOSHOP

- Learn your way around Adobe Photoshop!
- Enhance your images even further.
- Practice photographs are provided for all to work on together.
- And much more!
